

Brain Tumor and Nanotechnology

Authors:

Rishabha Malviya, School of Medical and Allied Sciences, Galgotias University, Greater Noida, India

Arun Kumar Singh, School of Medical and Allied Sciences, Galgotias University, Greater Noida, India

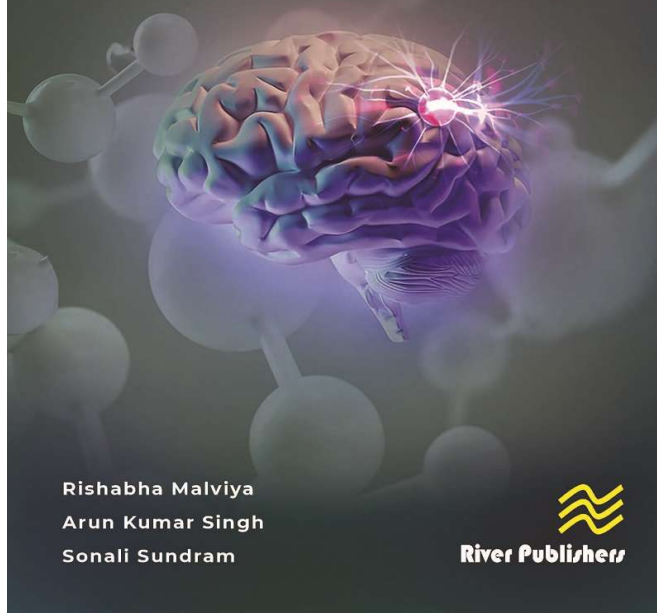

Sonali Sundram, School of Medical and Allied Sciences, Galgotias University, Greater Noida, India

Brain Tumors and Nanotechnology explores the complex world of brain tumors and the ground-breaking role that nanotechnology is playing in both detection and treatment. It offers comprehensive and up-to-date strategies in the treatment of brain tumors, with a special emphasis on the revolutionary impact of nanotechnology. It begins with an in-depth analysis of the anatomy of the brain and nervous system, highlighting the constituents of the central nervous system (CNS) such as neurons and glial cells. It also offers a thorough understanding of the intricate structure of the human brain, including the hemispheres, brainstem, diencephalon, and ventricular system. It then reveals the understanding of the complicated nature of brain tumors and the potential for nanotechnology to revolutionize their diagnosis and treatment. Brain Tumors and Nanotechnology will be a longstanding valuable resource for researchers, medical professionals, and students in the field.

TABLE OF CONTENTS

1. Anatomy of the Brain and Nervous System
2. The Role of Angiogenesis in Neuronal Tumors
3. Methods of Transduction and the Physiology of the Blood??Brain Barrier
4. Specific Brain Tumor Treatments Supplied using Active Nanotechnology Delivery Systems
5. Solid-core Lipid Nanoparticles as a Vehicle for Brain Drug Delivery
6. Clinical Studies on the Efficacy and Safety of Nanoenabled Carriers for the Treatment of Brain Tumors
7. Degenerative Diseases Treated with Brain-directed Lipid/Polymeric (Hybrid) Nanoparticles
8. Challenges and Intellectual Property Rights Prospects Particular to Nanotechnology in Treating Brain Tumors

BRAIN TUMOR AND NANOTECHNOLOGY

Rishabha Malviya

Arun Kumar Singh

Sonali Sundram

River Publishers

River Publishers Series in Biotechnology and Medical Research

ISBN: 9788770040884

e-ISBN: 9788770040877

Available From: August 2024

Price: € 108.50 \$ 132.00

KEYWORDS:

Nanocarriers, blood brain barrier, nanoparticles, drug delivery, cancer, tumor, nervous system, brain
