

Winning the AI Arms Race

Defeating China and Russia, Re-establishing American Superpower for Global Prosperity and the Greater Good with Artificial Intelligence

Author: Rishi Kumar, USA

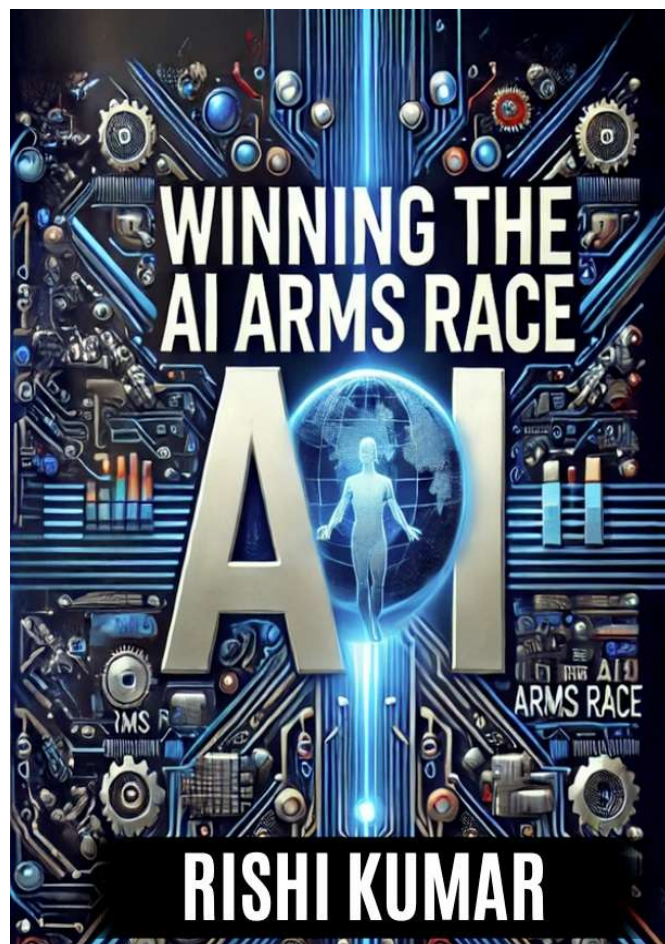

Rishi Kumar offers an insightful and compelling exploration of how artificial intelligence is set to shape America's future and its standing on the global stage with "Winning the AI Arms Race - Defeating China and Russia, Re-establishing American Superpower for Global Prosperity and the Greater Good with Artificial Intelligence."

With his extensive experience as an award-winning Silicon Valley C-suite executive, a former congressional candidate, an executive board member of the state party, and an elected leader in his city, Kumar brings a visionary yet grounded perspective on leveraging AI's transformative potential. His unique expertise in technology, public policy, and public service allows him to present strategies that could significantly influence national and global advancements in AI.

The book is structured around three pivotal themes: strengthening and safeguarding America's superpower status, countering the threats posed by malicious actors, and harnessing AI for the greater global good. This book is essential reading for policy makers navigating the complexities of AI's future and business leaders aiming to position themselves for success in the AI-driven world. It's an indispensable resource for anyone looking to understand and influence the future of AI.

TABLE OF CONTENTS

Preface: My Path to AI Innovation
Section 1: Introduction to AI
1: The Book Introduction
2: The Emergence of AI- Why Now?
3: The Arrival of Generative AI
4: Silicon Valley is Strategic to AI Success
Section 2: The Technology
5: Steam to Silicon: The Industrial Revolution Evolution
6: AI's Journey: Iron Dome to Café X
7: Chips and the AI Spurt
8: The Dawn of AGI: Rights and Revolution
Section 3: The AI Imperative - The Pros
9: AI-driven Superpower Ascent
10: The Rise of the AI-driven Economy
11: Corporate America's Success with AI
12: AI in Government: Smarter Services
SECTION 4: The AI Challenges- The Cons
13: Superintelligence, Singularity and the Existential Threat
14: The Future of Work: Jobs Displacement
15: The Cognitive and Psychological Issues
16: The "Power" Struggle and Sustainability
17: The Data Dilemma: Security and Privacy
18: A Trust Crisis: Deepfakes and Scamsters
Section 5: Ethical and Societal Values
19: AI for the Greater Good
20: Navigating AI's Ethical Maize
21: Ethics by Design: Responsible AI
22: Corporate Strategy: Leadership and Certification
23: Silicon Valley needs a Conscience
Section 6: The Road to Superpower with AI
24: The Pause Debate
25: AI Is IP and a National Security Imperative
26: Bulletproofing America's Future
27: America's Revamped Education Policy
28: Moonshots for the Next Giant Leap
29: Pragmatic AI Policies for Tomorrow
30: The Policy Blueprint: Crafting Tomorrow
Section 7: AI and Industry Verticals
31: A Day in the Life of Sara - Living with AI
32: The Future of Public Sector Efficiency
33: Warfare and Defense Strategies
Section 8: Onward and Upward
34: Jobs Safe and Jobs not so Safe
35: Our Marching Orders
Appendix
The White House Executive Order
California Governor Newsom's Executive Order
California's Senate Bill 1047
The AI Institute Polling

River Publishers Series in Computer Engineering and Information Science and Technology

ISBN: 9788743800897
