Sanjay Taneja, Graphic Era deemed to be University, India

Swati Gupta, Chitkara University Punjab, India

Mohit Kukreti, University of Technology and Applied Sciences Ibri,
Oman

Abhishek Singh Chauhan, Graphic Era deemed to be University,
India

This book offers a comprehensive exploration of the profound challenges and opportunities presented by deepfake technology across industries, society, and governance. It delves into the multifaceted impacts of synthetic media, examining its potential to reshape corporate trust, economic stability, and public discourse while emphasizing strategies to build resilience and ethical frameworks.

Key themes include the role of intellectual capital in safeguarding corporate reputation, the risks of deepfake fraud in financial markets, and the implications for insurance, banking, and fintech sectors. Through cross-disciplinary analyses, the book unravels the disruptive influence of deepfakes on political affairs, economic policies, and corporate transparency.

Highlighting real-world case studies, it addresses workplace resilience, data-driven decision-making, and the intersection of deepfake technology with marketing innovation and job satisfaction. From social media marketing to public trust and privacy concerns, the book offers actionable insights for navigating the ethical dilemmas posed by synthetic media.

With a focus on collaboration across disciplines, the book equips readers with strategies for mitigating risks, promoting media literacy, and leveraging AI responsibly. Mastering Deepfake Technology is an essential guide for academics, professionals, and policymakers seeking to understand and address the complexities of this emerging frontier.

TABLE OF CONTENTS

1. The Role of Intellectual Capital in Combatting Deepfake Threats to Corporate Reputation and Trust
2. The Face of Deception: Unmasking Deepfake Fraud in Financial Markets
3. Deep Fake News Technologies: Contemporary Challenges for Society's Sustainable Economic Development and Security
4. Workplace Resilience against Deepfakes: Awareness, Trust, and Training
5. Data-driven Decision-making in the Insurance Industry
6. Role of Fintech in Revamping the Banking World
7. A Multidisciplinary Approach to Building Resilience against Deepfakes in the Financial Sector
8. Unmasking Influence: A Bibliometric Analysis of Deepfake Technology in Social Media Marketing
9. The Influence of Deepfake Technology on Political Affairs
10. The Exposure of Deepfake Technology on Social Media and Society
11. The Impact of Deepfakes on Corporate Transparency: A Cross-Disciplinary Study of Governance, Financial Reporting, and Marketing Communications
12. The Impact of Deepfake Technology on Public Trust in Economic Policies
13. Unveiling Deepfake: Ethical Concerns in Social Media Discourse
14. Risks to Individual Privacy and Security in the World of Deepfake Technology
15. Deepfake Disruption: Leveraging AI for Marketing Innovation and Financial Resilience
16. Impact of Deepfake Technology on Job Satisfaction and Commitment: Case Analysis
17. Navigating the Synthetic Media Conundrum: A Manager's Integrated Roadmap for Enhancing Religious Tourist Satisfaction and Attitude
18. Ethical Implications of Deepfake Technology in User Interfaces
